SUMMARY

Computer Science graduate (Cum Laude) and senior engineer / technical lead with 15+ years building production web, mobile, and cloud systems across banking, telecom, travel, and civic tech. Hands-on with microservices, AWS, CI/CD, and cross-border stakeholder work. Uses Claude Code, OpenAI Codex, and OpenAI models as primary coding assistants.

SKILLS

Backend: Python, Node.js, C#, .NET Core, ASP.NET MVC, Java, Spring, Go, REST, microservices

Cloud and DevOps: AWS (Certified), S3, Lambda, MediaConvert, Rekognition, Docker, CI/CD, GitHub Actions, JWT, SSO, Nginx

Data: SQL Server, PostgreSQL, Oracle, DynamoDB, MongoDB

Frontend and Mobile: React, React Native, Angular

Practices: Agile, Scrum, technical leadership, system design, code review, stakeholder management

AI tools: Claude Code, OpenAI Codex, OpenAI

Languages: English (professional), Spanish (improving)

EXPERIENCE

Senior Software Engineer

April 2026 – Present

Peregrine Global

- Engineer core microservices in peregrine-suite using .NET and Python across 40+ services for higher-education assessment workflows.
- Modernize legacy systems into a cloud-native client and identity platform; integrate AWS S3, MediaConvert, Rekognition, SendGrid, and Twilio.
- Standardize CI/CD and authentication across 8+ repositories with GitHub Actions pipelines and centralized JWT/SSO.
- Use Claude Code, OpenAI Codex, and OpenAI models for service design, implementation, and code review.

Senior Software Engineer III

April 2024 – April 2026

JP Morgan Chase & Co

- Developed and maintained microservices on proprietary hybrid and AWS cloud infrastructure.
- Coordinated with stakeholders in the US, India, and the Philippines on project status, strategy, and solutions.
- Supported 500+ production microservices and handled regional support issues.

Technical Lead

June 2022 – April 2024

Sinch

- Led backend and frontend developers maintaining AWS-deployed microservices in Python and Node.js.
- Triaged Jira tickets and assigned work across the team.

Solutions Architect

May 2020 – June 2022

PTC Systems LTD

- Led 2 teams that migrated the ACRA customer-facing e-commerce application (<https://www.acra.gov.sg>) and improved web performance from 6 to 80.
- Deployed UiPath RPA automation at FujiFilm, Comfort DelGro, and Soitec.
- Supported PostgreSQL 11 to 13 migrations, Java patching, and first-line support for Nginx, AWS Lambda, and application VMs.

Full Stack / Senior Backend Developer

November 2019 – May 2020

Hammerjack

- Philippines counterpart for an Australian microservices partner; built backend services, reviewed pull requests, and worked with DevOps reporting to the CTO.

Solutions Developer – Level 4

August 2019 – November 2019

Cebu Pacific Air

- Built ticketing and flight-schedule microservices; migrated .NET Web APIs to Node.js; assisted Angular frontend work and local code reviews.

Senior Programmer

January 2019 – June 2019

Royal Caribbean Cruises Ltd.

- Developed and mentored PHP (CakePHP) and .NET (ASP.NET, C#) teams of 7; worked with PMs, POs, and SAs.

Systems Analyst

June 2015 – June 2018

Carlson Wagonlit Travel

- Built .NET and WPF Windows Forms applications and REST APIs integrating Amadeus, Galileo, Apollo, and Sabre.
- Collaborated with 25+ developers, QAs, and BAs.

Technical Advisor

December 2014 – March 2017

SKRocket

- Delivered web and mobile applications; worked with business owners on product conceptualization.

.NET Consultant

May 2014 – November 2014

Sysgen

- Developed and optimized web applications for OSM Maritime; worked with BAs and SAs on delivery.

Senior Web Developer

June 2013 – April 2014

The Ocala Group, LLC

- Maintained and optimized the core inventory web application; reported to the CTO on production issues.

Senior Web Developer

June 2011 – January 2013

Emerson Network Power

- Developed and maintained web applications; collaborated daily with the US team in Columbus, Ohio; on-site in the US for project familiarization.

Applications Engineer

December 2009 – May 2011

Star Cruises

- Developed and enhanced internal Windows Forms and web applications; on-site in Hong Kong to analyze ship IT operations.

PERSONAL PROJECTS

Spain Connect App

In development

- Civic Connect platform for Spain: native maps, push notifications, dynamic forms, back-office integration, and AI features for alerts, form assist, and citizen Q&A.

Naval Connect

- LGU app for Naval Municipality with push notifications, native maps, back-office integration, and dynamic forms. iOS and Android.
- iOS <https://apps.apple.com/ph/app/naval-connect/id6756524912>
- Android <https://play.google.com/store/apps/details?id=com.lothlorienlabs.connect>

REMOTE101<https://remote101.ph>

- Job aggregator for verified listings with payment integration.

LOKIERP<https://lokierp.com>

- ERP for schools, services businesses, and transportation.

EDUCATION

Bachelor of Computer Science, Cum Laude

June 2002 – March 2006

Systems Technology Institute
